

Go to iuanyware.iu.edu and log in

- If prompted, click “Detect Receiver”

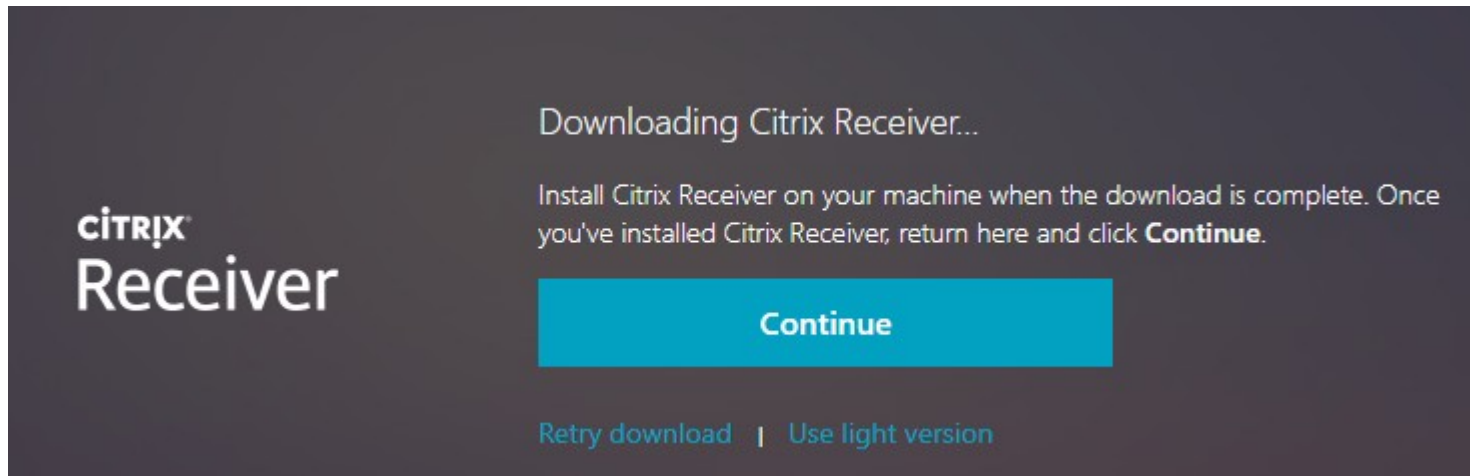

Go to iuanyware.iu.edu and log in

- I prompted click “I agree” and then click “Download”
- Then install the CitrixWebReceiver.exe

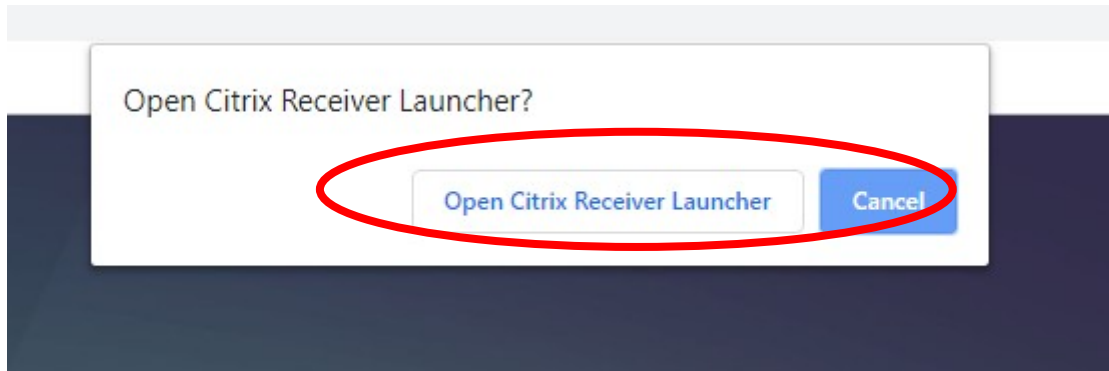

Go to iuanyware.iu.edu and log in

- When Finished, click “Continue”

Open Citrix Receiver

- Click “Open Citrix Receiver Launcher

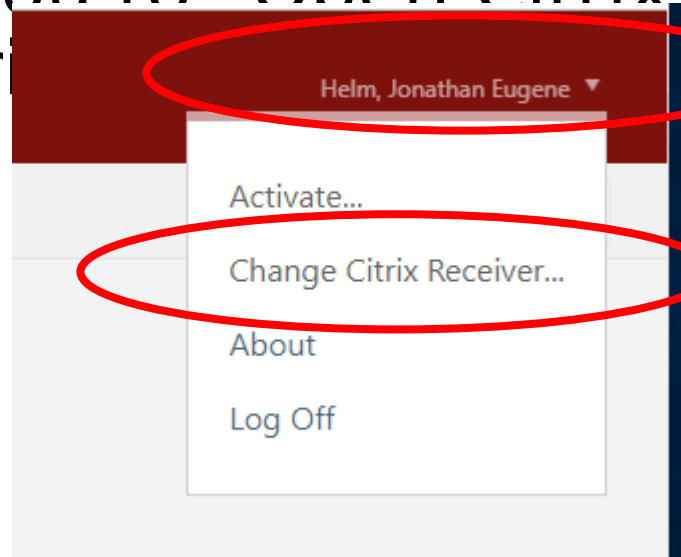

Opening StatTools

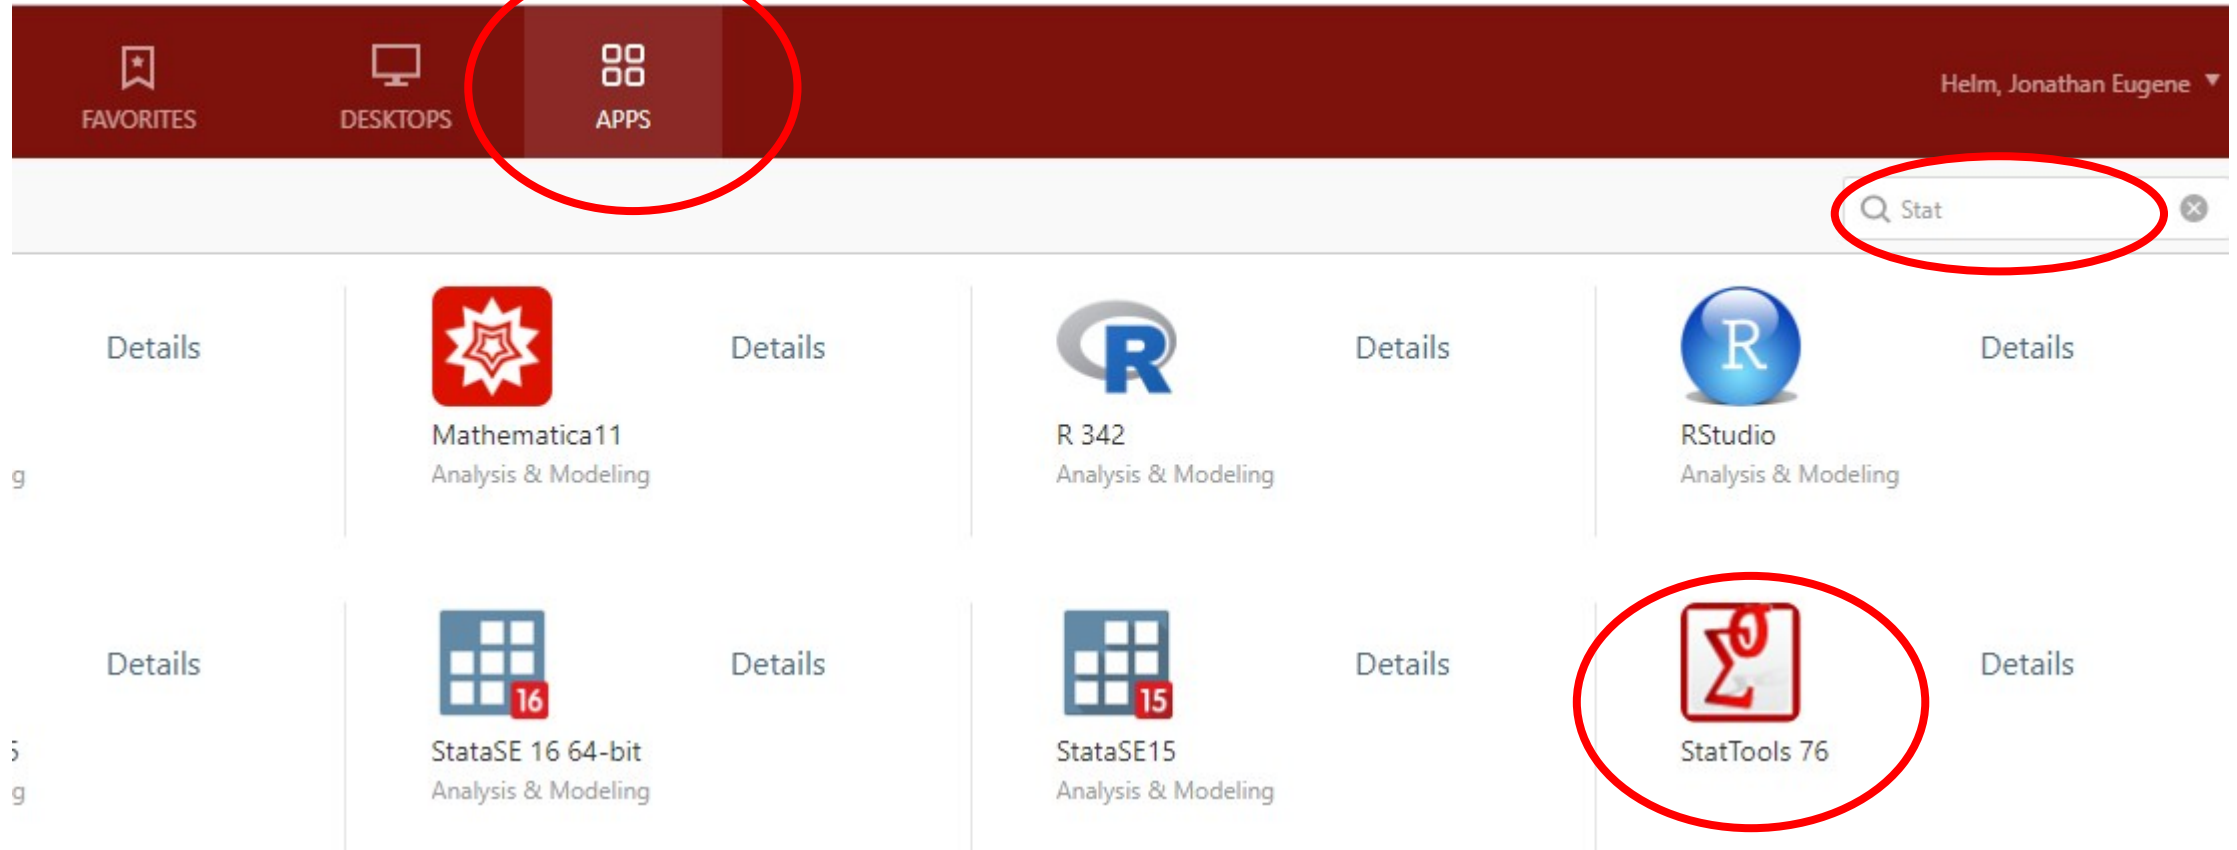

- When you click on the StatTools app, it will ask you if you want to open in Citrix Receiver. Click “Open in Citrix Receiver”. Otherwise it will open in the browser and you won’t be able to open files from your harddrive
- If it opens in a browser or does not give you this option, try the following on the next slide

Change Citrix Receiver

- Click on your name in the upper right hand area of the webpage
- Click “Change Citrix Receiver”
- Now it should open the app instead of opening in a webpage
- It will prompt you to “Open Citrix Receiver” or “Download Citrix Receiver” by the prompts in the slides above

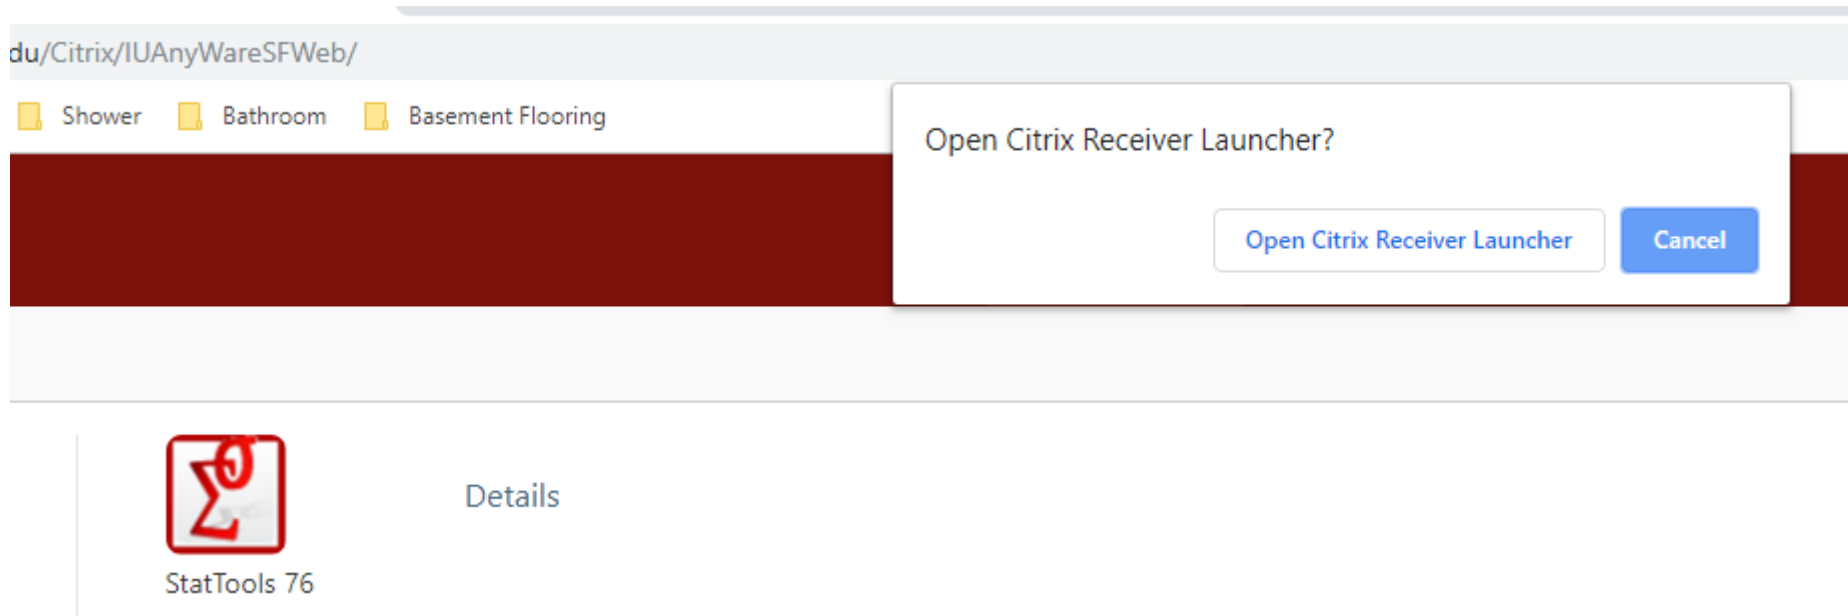

Go to iuanyware.iu.edu and log in

When you open StatTools

- It may prompt you again to “Open Citrix Receiver”
- Again Click “Open Citrix Receiver Launcher”

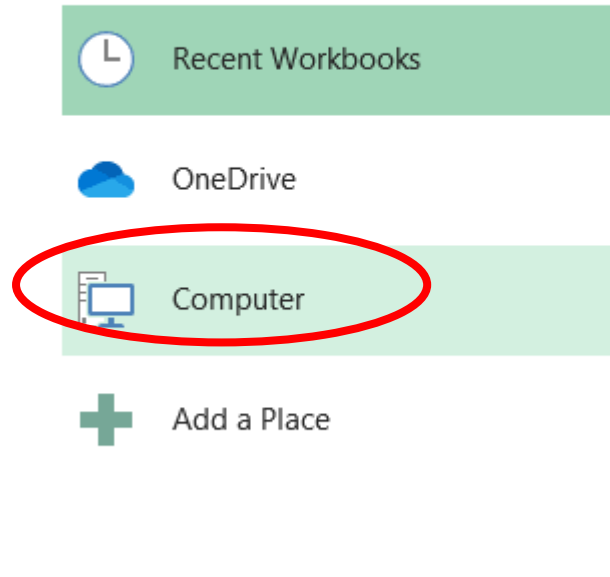

If it asks you to “Allow Access”

- Click “Allow”

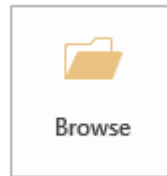

Open files from your desktop

Open

1.

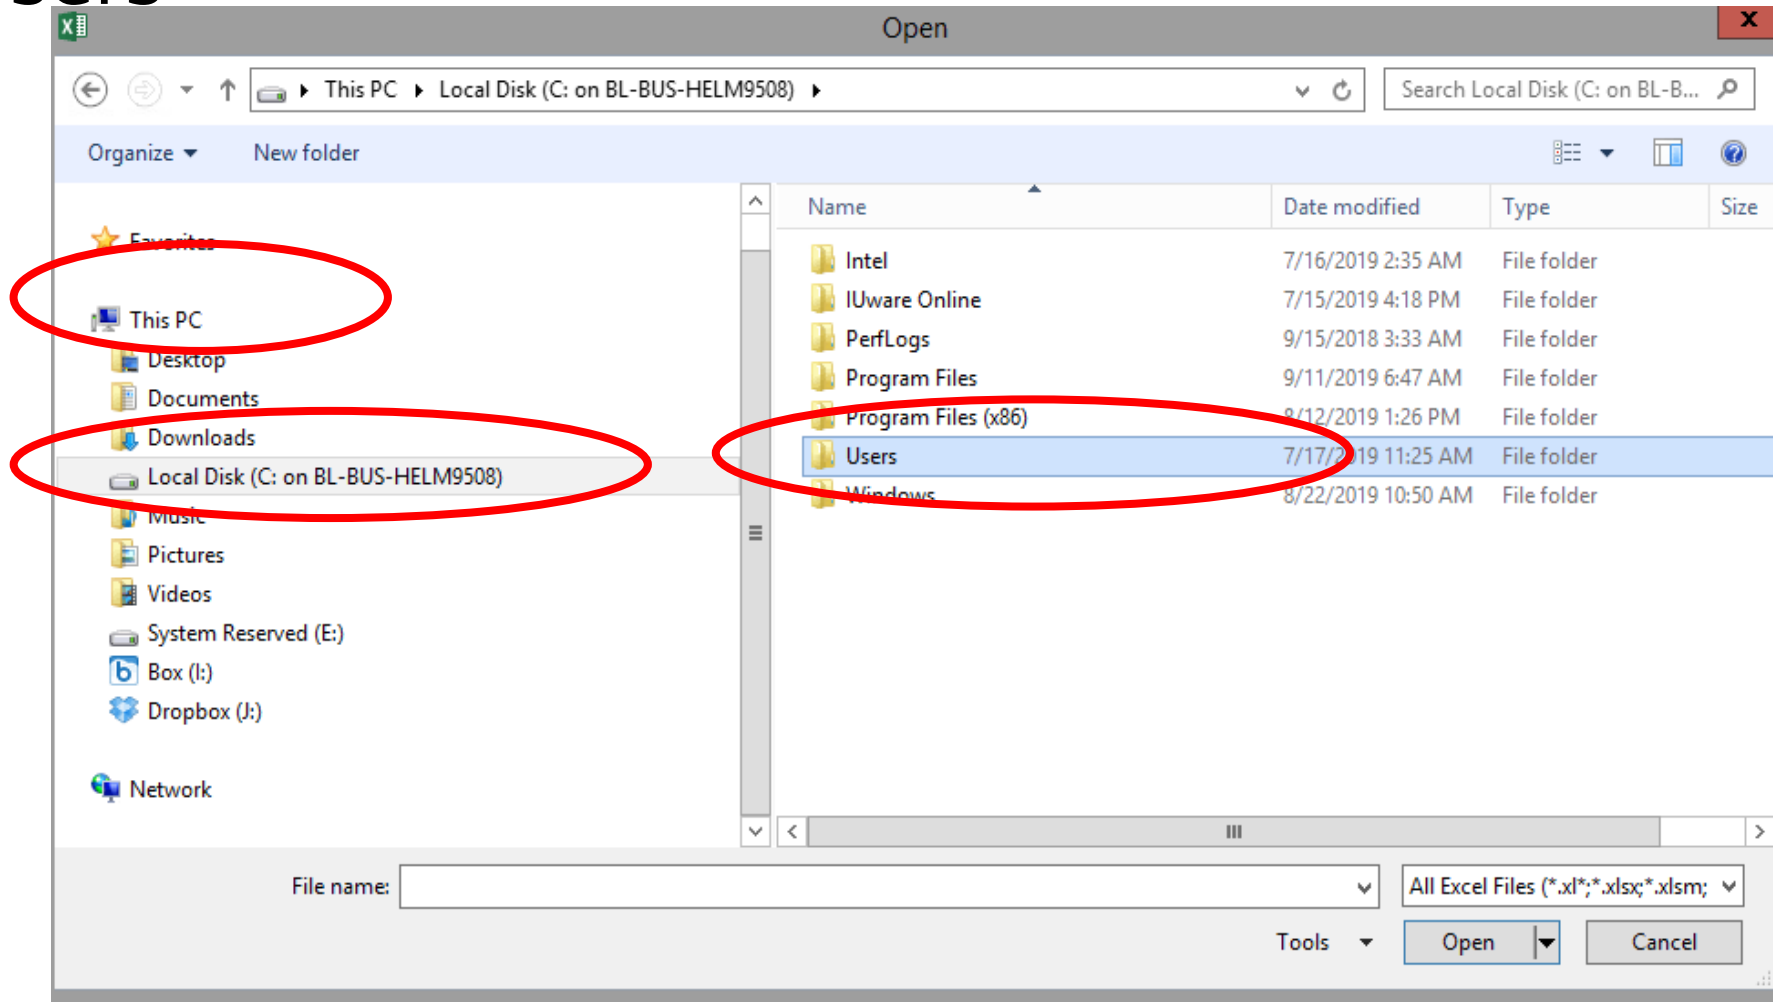

2.

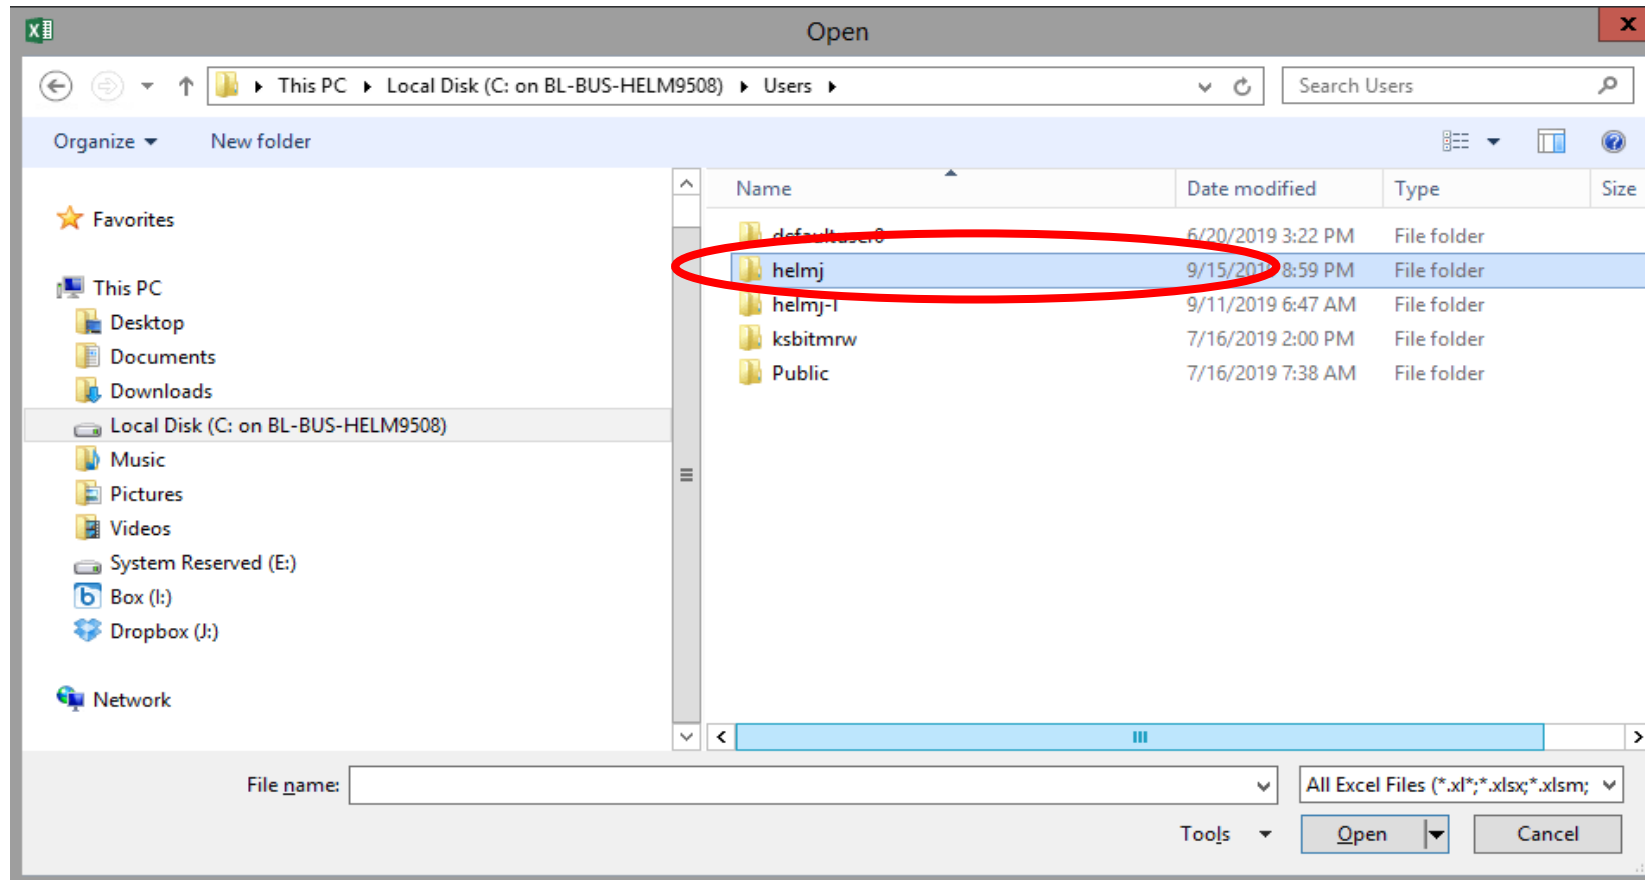

Open files from your desktop

- Click “This PC” then click “Local Disk” then open “Users”

Open files from your desktop

- Find your user name

Open files from your desktop

- Click on the Desktop folder
